

## Technology kit for Minilift S, underground KTP300 res.

## **Article information**

Item no.: 280570C-TK GTIN: 4026092108093

Price group: 20

## **Description**

For combination with a KESSEL shell kit for creating a Minilift S small lifting station for wastewater without sewage. The ready to plug in small lifting station for wastewater without sewage is suitable for the disposal of wastewater from individual drainage sources. The submersible pump with float switch can be removed easily with the help of one-handed closures. The collection tank made of polymer (PE) has an open pump tank and is resistant to aggressive wastewater. The system for installation in the floor slab is pre-assembled for final installation on site. KESSEL technology kit consisting of:

- Pump with multi-vane vortex impeller for maximum operating safety - Resistant to saline media, wastewater from water softening systems and wastewater containing condensate from heating systems - Includes float switch for level measurement

Resistant to saline media, wastewater from water softening systems and wastewater containing

condensate from heating systems

Variant

Type of system:

Resistant:

Rim width:

Backwater protection:

**Dimensions** 

Net weight: 4,05 kg
Gross weight: 4,34 kg
Packaging dimension: length
Packaging dimension: width
Packaging dimension: height

Pumping device

Pump control: KTP 300 resistant

Number of pumps:

1

Single unit

Float switch

integrated

Weight: 4 kg

Connection type: Schuko (earthed contact) 2-pin

Rated current: Length of mains cable for pump: 5 m Self-diagnosis system (SDS): I Insulation class: F

Protection class control unit: IP 68 (3m) DSC: integrated 40 °C

Max. temperature (permanent) of conveyed

material:

Max. pumping capacity: 8 m<sup>3</sup>/h Max. pumping height: 6 m

Speed: 2800 U/min Power P1: 0,34 kW Power P2: 0.21 kW Operating mode: S1 Type of fuse required (electrical protection): C 16 A

Type of pump connection cable: H07RN-F 3G 1.5 mm<sup>2</sup> Impeller type: Multi-vane impeller

Control

50 Hz Mains frequency: Operating voltage: 230 V

Schuko (earthed contact) 2-pin Connection type:

Rated current: 1,6 A
