

Pump system Aquapump Retrofit Duo, GTF 600-S1, subm. pressure switch

Article information

Item no.: AQUALI600D GTIN: Price group: 60

Description

The retrofit kit for installation in existing collection tanks for faecal-free wastewater is equipped with two submersible pumps, a backflow preventer and a manual locking device. The polymer profile (PE) is used to mount and fix the pumping station. Quick-release closures enable easy removal of the pumps. The station is controlled either by a float switch or by a user-friendly control unit, which can be optionally integrated in the building control system via a voltage-free contact. Alternatively, alarm and collective fault messages can be output via a GSM interface.

Variant	
Type of system:	duo pump
Rim width:	Control unit
Backwater protection:	integrated
Pressure pipe connection:	horizontal
General characteristics	
Standard:	EN 12050-2
Type of wastewater:	without sewage
Installation situation:	installation in on-site collecting tank
Delivery state:	Modular set for assembly on site
System type:	Duo
Dimensions	
Length:	540 mm
Width:	360 mm
Height:	741 mm
Tapk (drain body	
Tank/drain body Pressure pipe connection (DN):	32
Pressure pipe connection (DD):	40 mm
	40 11111
